Fabric shades

Metal shades

Acrylic attachments

Verschiedene Leuchenschirme und -vorsätze ergänzen die Pendelleuchten von BÄRO und erweitern den Gestaltungsspielraum für Beleuchtungsprojekte im Handel. Zur Wahl stehen satinierte, transluzente Acrylvorsätze, historisch anmutende Metallschirme aus Aluminium, Stahl oder Stahlblech sowie Textilschirme aus glattem Chintz, deren Form und Farbe individuell gestaltet werden kann.

Various shades and attachments supplement the suspended luminaires from BÄRO and expand the design scope for lighting projects in the retail sector. There is a choice of satined, translucent acrylic attachments, retro-look metal shades made of aluminium, steel or sheet steel and fabric shades made of smooth chintz, which can be customised in shape and colour.
